

On behalf of the Organizing Committee we are glad to invite you to take part in the International Conference on Food Contaminants: challenges in chemical mixtures - ICFC 2015 - that will be held in Lisbon, Portugal on the 13th and 14th April, 2015.

This multidisciplinary congress provides a forum for both internationally established and young researchers to exchange advanced knowledge on Food Contaminants and Human Health. The congress will be comprised of keynote lectures given by world-renowned scholars, in addition to oral and poster sessions. State of the Art developments in different fields of chemical mixtures: analytical chemistry, risk/exposure assesment, bioavailability and toxicity of food contaminants will be covered during presentations.

The Scientific and Organizing Committees are looking forward to meeting you in Lisbon!
