

34th CINP World Congress of Neuropsychopharmacology

7-10 May 2023 Montreal, Canada

Montreal	SUNDAY, MAY 7, 2023	MONDAY, MAY 8, 2023				
-4						
7:30						
7:45						
8:00						
8:15						
8:30						
8:45						
9:00	CINP EC Committee Meeting 9:00 - 11:00	PL02: Plenary 2 - Mental Disorder Registry Initiative in Japan Prof. Kazuyuki Nakagome 9:15 - 10:15				
9:15						
9:30						
9:45						
10:00		Break Exhibits Posters 10:15 - 10:45				
10:15						
10:30						
10:45		CINP/AsCNP Symposium 10:45 - 12:00	Parvalbumin, GABA, and Excitation / Inhibition Balance (Schizophrenia) 10:45 - 12:00	Suicide Ideation 10:45 - 12:00	Behavioural Addictions at Adolescence 10:45 - 12:00	Early Career meets Plenary Speaker 10:45 - 12:00
11:00		Break 12:00 - 12:15				
11:15		NBN Pierre Blier & Joseph Zohar 12:15 - 13:15	Oral Abstracts Session 12:15 - 13:15	Brief Oral Abstracts Session 12:15 - 13:15	Brief Oral Abstracts Session 12:15 - 13:15	Against the Odds: Personal Perspectives from Groundbreakers 12:15 - 13:15
11:30		Break 13:15 - 13:30				
11:45		Industry Symposium Sumitomo 13:30 - 14:30	Lunch Break 13:30 - 14:30			
12:00		Break 14:30 - 14:45				
12:15		How Pharmacology Drives Therapeutics (5-HT1A Receptor) 14:45 - 16:00	Redox, Glutamate and Oxidative Stress in Pathogenesis of Psychiatric Disorders 14:45 - 16:00	New International Treatment Guidelines for Obsessive-Compulsive Disorder 14:45 - 16:00	Oral Abstracts Session 14:45 - 16:00	Research Fellowship Session* 14:45 - 16:00
12:30		Break Exhibits Posters 16:00 - 16:30				
12:45		PL03: Plenary 3 - Neuropsychiatry of COVID-19 Prof. Paul Harrison 16:30 - 17:30				
13:00		Moderated Featured Posters 17:30 - 18:20				CINP Business Meeting 17:30-18:30
13:15					Asian Night Japanese Society of Neuropsychopharmacology (JSNP) 18:15 - 20:15	Early Career Event 18:45 - 19:30
13:30						
13:45						
14:00						
14:15						
14:30						
14:45						
15:00						
15:15						
15:30						
15:45						
16:00						
16:15						
16:30						
16:45	Research Fellowship Welcome Reception* 16:30 - 17:30					
17:00						
17:15						
17:30	Break 17:30 - 17:45					
17:45	Opening & Awards Ceremony 17:45 - 18:30					
18:00						
18:15						
18:30	PL01: Plenary 1 - Precision in Prevention of Suicide Prof. Philippe Courtet 18:30 - 19:00					
18:45						
19:00	Welcome Reception 19:00 - 20:00					
19:15						
19:30						
19:45						
20:00						
20:15						
20:30						
20:45						
21:00						
21:15						
21:30						

TUESDAY, MAY 9, 2023				
Industry Symposium Otsuka 8:00 - 9:00				
Break 9:00 - 9:15				
PL04: Plenary 4 - Neuroimaging and Computational Neuroscience Approaches in the Study of Psychosis: Need for Novel Approaches Dr. Paola Dazzan 9:15 - 10:15				
Break Exhibits Posters 10:15 - 10:45				
Mechanism of Action of Psychedelics: A Translational Perspective 10:45 - 12:00	The Potentials of iPSC-modelling for Neuropsychopharmacology Research and Drug Discovery 10:45 - 12:00	Brain Aging in Depression and Schizophrenia 10:45 - 12:00	The Neurobiology of Habits 10:45 - 12:00	Early Career meets Plenary Speaker 10:45 - 12:00
Break 12:00 - 12:15				
Pro/Con Debate on Drug Development 12:15 - 13:15	Oral Abstract Session 12:15 - 13:15	Oral Abstract Session 12:15 - 13:15	Brief Oral Abstracts Session 12:15 - 13:15	Conducting and Publishing Research for Early Careers 12:15 - 13:15
Break 13:15 - 13:30				
Industry Symposium Boehringer-Ingelheim 13:30 - 14:30	Lunch Break 13:30 - 14:30			
Break 14:30 - 14:45				
Depression Therapy with Psychedelics and Ketamine 14:45 - 16:00	Gonadal Steroids and the Brain 14:45 - 16:00	Integrated Approaches Towards the Translation of Neuropeptides into Novel Therapies for Mental Disorders 14:45 - 16:00	Oral Abstracts Session 14:45 - 16:00	Research Fellowship Session* 14:45 - 16:00
Break Exhibits Posters 16:00 - 16:30				
PL05: Plenary 5 - From Stem Cells to Organoids to Assembloids and Toward Building Human Circuits in Living Systems to Study Disease Prof. Sergiu Pasca 16:30 - 17:30				
Moderated Featured Posters 17:30 - 18:20				
Dinner 18:30 - 21:30				

WEDNESDAY, MAY 10, 2023					Montreal
					-4
					7:30
					7:45
					8:00
					8:15
					8:30
PL06: Plenary 6 - Challenges in CNS Drug Development & How to Address Them: Lessons from Schizophrenia Prof. Oliver Howes 8:45 - 9:45					8:45
					9:00
					9:15
					9:30
Break Posters 9:45 - 10:15					9:45
					10:00
Glutamatergic Synapse Physiology in Neuropsychotic Disorders 10:15 - 11:30	Recent Advances in Transcranial Magnetic Stimulation for Depression 10:15 - 11:30	Altered Cortico-striatal Glutamate Homeostasis as a Cause of and Treatment Target for Drug and Stress-related Disorders 10:15 - 11:30	Novel Insights on Effects of Cannabis Arising from Controlled Administration Studies 10:15 - 11:30	Early Career meets Plenary Speaker 10:15 - 11:30	10:15
					10:30
					10:45
					11:00
					11:15
Break 11:30 - 11:45					11:30
					11:45
Rafaelsen Symposium 11:45 - 12:45	Medical Assistance in Dying (MAiD) 11:45 - 12:45	Oral Abstract Session 11:45 - 12:45	Brief Oral Abstract Session 11:45 - 12:45	Research Fellowship Session* 11:45 - 12:45	12:00
					12:15
					12:30
Break 12:45 - 13:00					12:45
Lunch Break 13:00 - 14:00					13:00
					13:15
					13:30
					13:45
Break 14:00 - 14:15					14:00
Critical Avenues in PTSD 14:15 - 15:30	Ketamine, Beyond Glutamate 14:15 - 15:30	Bipolar Disorders 1 vs 2: Myth or Fact? 14:15 - 15:30	Oral Abstracts Session 14:15 - 15:30	Research Fellowship Session* 14:15 - 15:30	14:15
					14:30
					14:45
					15:00
					15:15
Break Posters 15:30 - 16:00					15:30
					15:45
PL07: Plenary 7 - Neuroimaging Profiling of Psychiatric Disorders: Insights and Challenges Closing Remarks Dr. Sophia Frangou 16:00 - 17:15					16:00
					16:15
					16:30
